

THE ANNUAL

One of the more common scheduled services FieldGroomers provides to its client base. Designed as the first step in any season opening or as a periodic service for high-use fields

Surface Debris Removal

Extraction of loose fibers, sunflower seeds, trash, and metal material.

De-Compaction

Softens the field, lowers Gmax values, and increases drainage.

Grooming

Lifts the turf fibers and re-levels the infill.

Deep Debris Removal

Extraction of loose fibers, debris, sunflower seeds, trash, and metal material trapped within the infill.

Spot Top Dress

Installation of infill in low areas.

Antimicrobial Treatment

Kills bacteria growth on turf.

Final Groom

Lifts the turf fibers and levels top dressed areas.

Give us a call today 888-613-6993 for a free onsite demonstration or field evaluation and we will create a maintenance program to protect your investment and offer extended life to your field.
